1. Getting Started

1.1 Login Page

The portal is securely restricted to authorised personnel. Navigate to **https://rpfhygiene.com** to access the login screen.

How to log in:

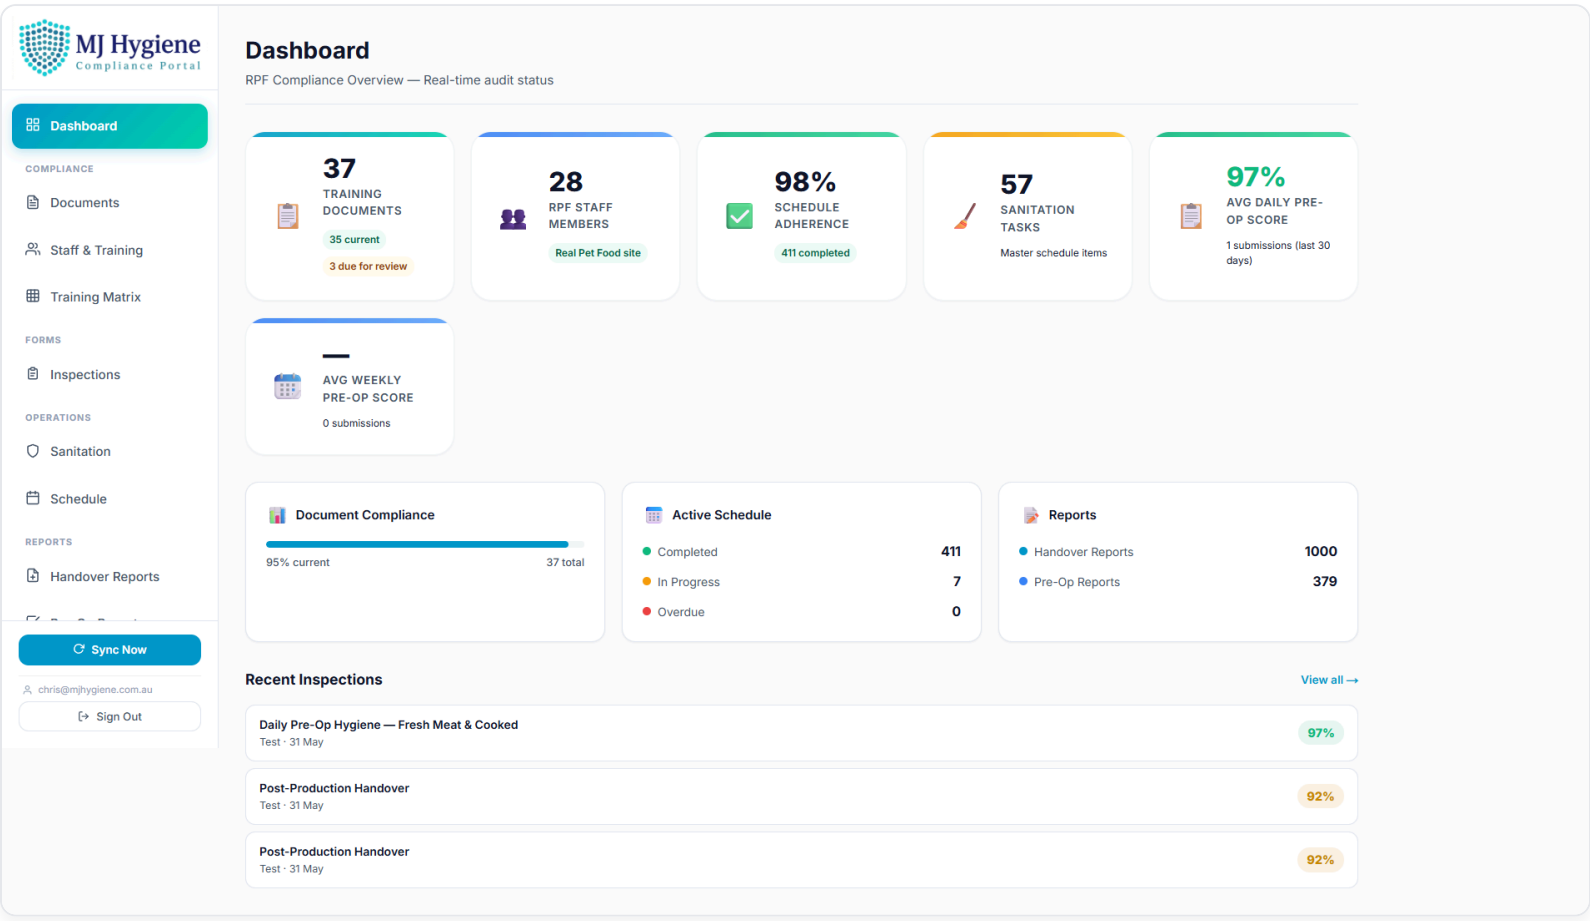

1. Enter your registered email address.
2. Enter your password.
3. Click **Sign In**.

Role Permissions

- **Inspector:** Basic access (documents, staff, matrix, schedule, forms, reports).
- **MJ Supervisor:** Access to WMS Training Lookup.
- **MJ Admin:** Full access including user management and system settings.

1.2 Dashboard

Upon logging in, you will be directed to the Dashboard. This serves as the central hub for the compliance portal.

- **Stats Cards:** View high-level metrics such as total staff, document count, and training compliance percentage.
- **Sync Button:** Manually trigger a synchronization with the master Airtable database to ensure you are viewing the latest data.

2. Training & Documents

2.1 Documents Page

The Documents page provides a searchable master list of all RPF procedures, policies, and manuals.

Features:

- **Search & Filter:** Find staff by name, or filter by their current employment status (Current/Terminated).
- **Staff Cards:** Displays the staff member's name, site, and overall training compliance percentage.
- **Training Records:** Click a staff card to view a list of all procedures they have been trained on.

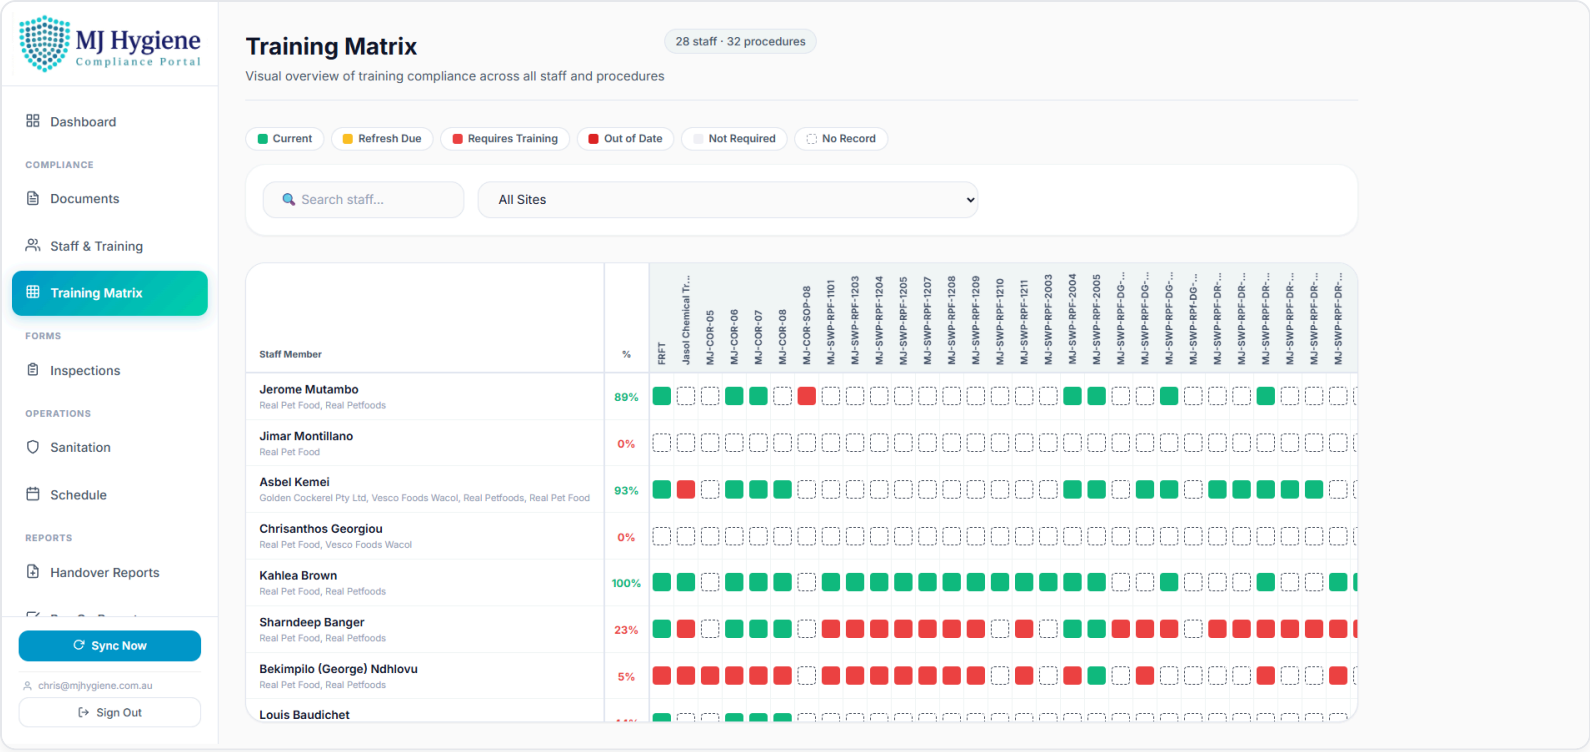

Training Status Badges

Training statuses are visually colour-coded:

- Current - Training is up to date.
- Refresh Due - Training expires soon (within 30 days).
- Requires Training - Staff member has not completed this training.
- Out of Date - Training has expired.
- No Record - No training record exists.

2.3 Training Matrix

The Training Matrix provides a bird's-eye view of your entire workforce's compliance against all required procedures.

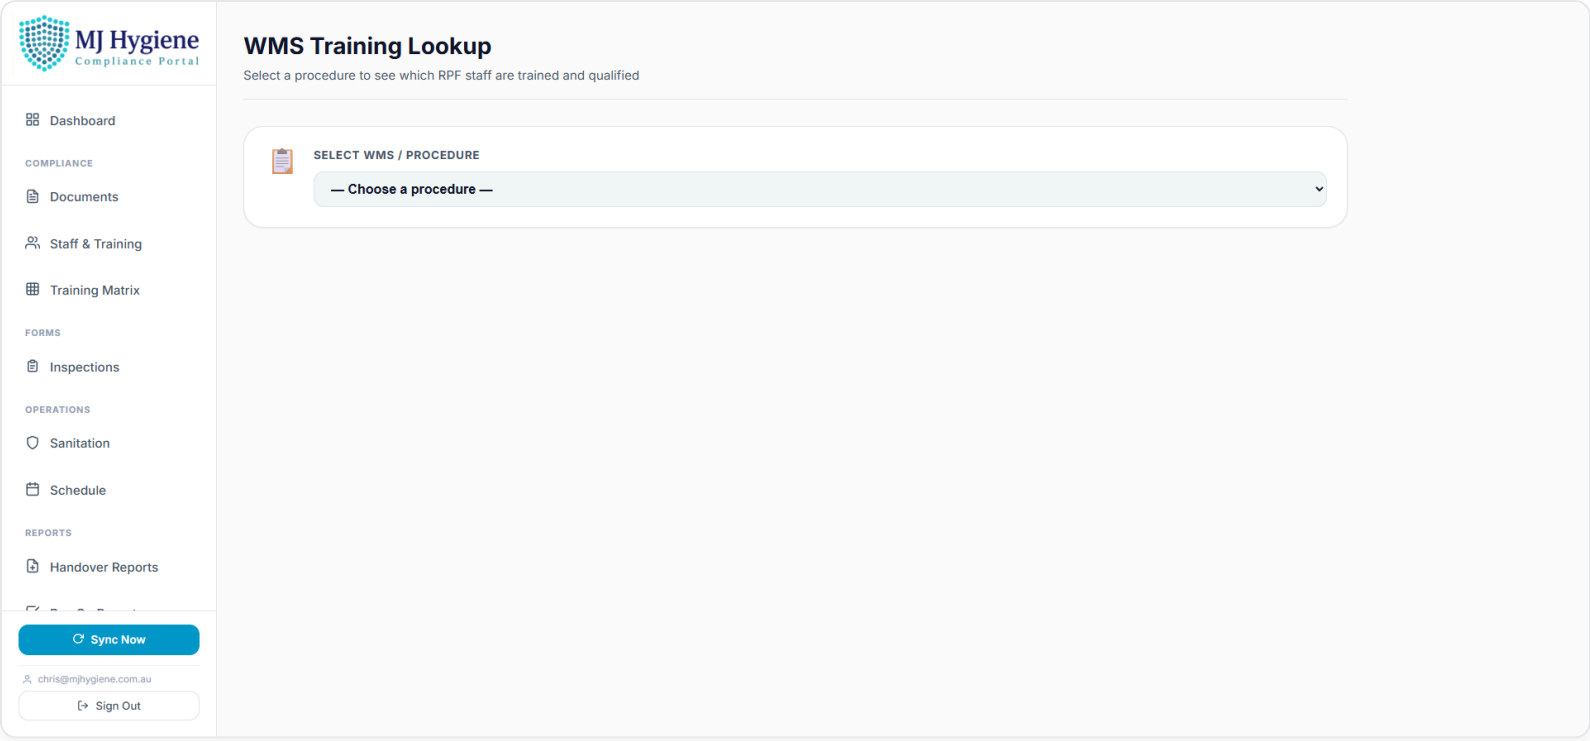

How to use the matrix:

- The grid shows **Staff Members** on the left (rows) and **Procedures (WMS)** across the top (columns).
- Each cell is colour-coded based on the staff member's status for that specific procedure (Green = Current, Red = Out of Date, Grey = No Record).
- Hover over any cell to see a tooltip with exact details (dates, status).
- The top row shows the overall compliance percentage for each procedure.

2.4 WMS Training Lookup (Admin / Supervisor)

This specialised tool allows Supervisors and Admins to quickly check which staff members are qualified for a specific procedure.

Instructions:

1. Select a **WMS Procedure** from the dropdown menu (e.g., "Cleaning the Fussy Cat line").
2. The system will display a list of **all Current RPF Staff**.
3. Staff who are currently trained will show a Current badge and a **Cert** link if a certificate is available to download.
4. You can filter the list to only show staff who are "Current" or those who "Require Training".

Protected Records

Training records dated prior to May 2026 are protected as historical data and will not be overwritten by system syncs.

3. Operations & Compliance

3.1 Sanitation Schedule

Track all routine cleaning tasks and master sanitation schedules.

Master Sanitation Schedule

57 tasks | Export CSV

Cleaning Task 592	External areas	Rendering/Bin wash area	External areas	Deep Cleaning	Weekly	GENERAL ROUTINE WORK

- View tasks grouped by Area and Department.
- See cleaning frequencies (e.g., Daily, Weekly, Monthly) and specific asset requirements.
- Access linked procedure documents directly from the schedule.

3.2 Inspections / Forms

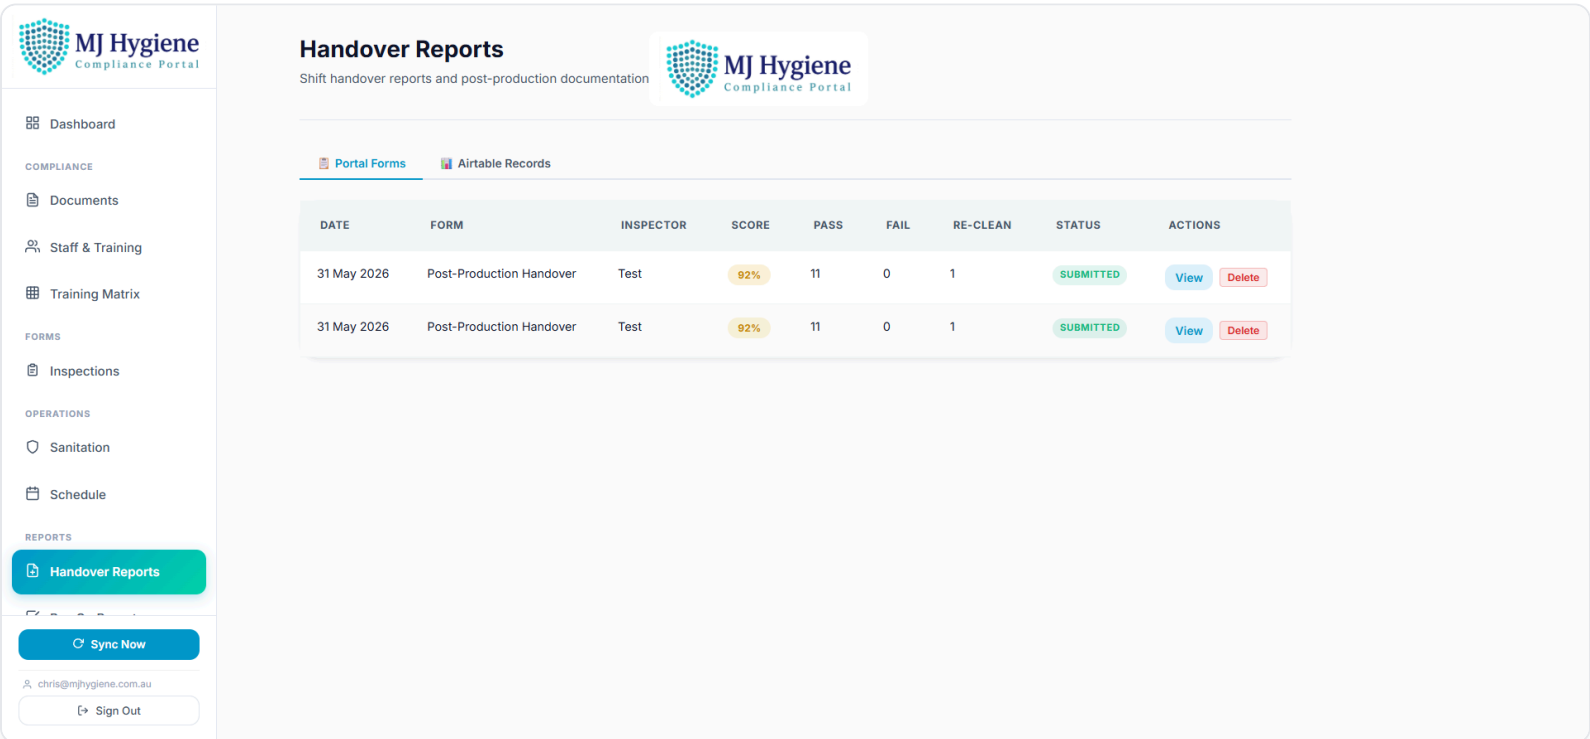

Complete and manage digital inspection forms natively within the portal.

- **Form List:** View available inspection templates.
- **Completing Forms:** Fill out mobile-friendly, multi-step forms directly in your browser. No external apps required.
- **Submissions:** View past form submissions, including scores, dates, and the inspector's name.

3.3 Handover Reports

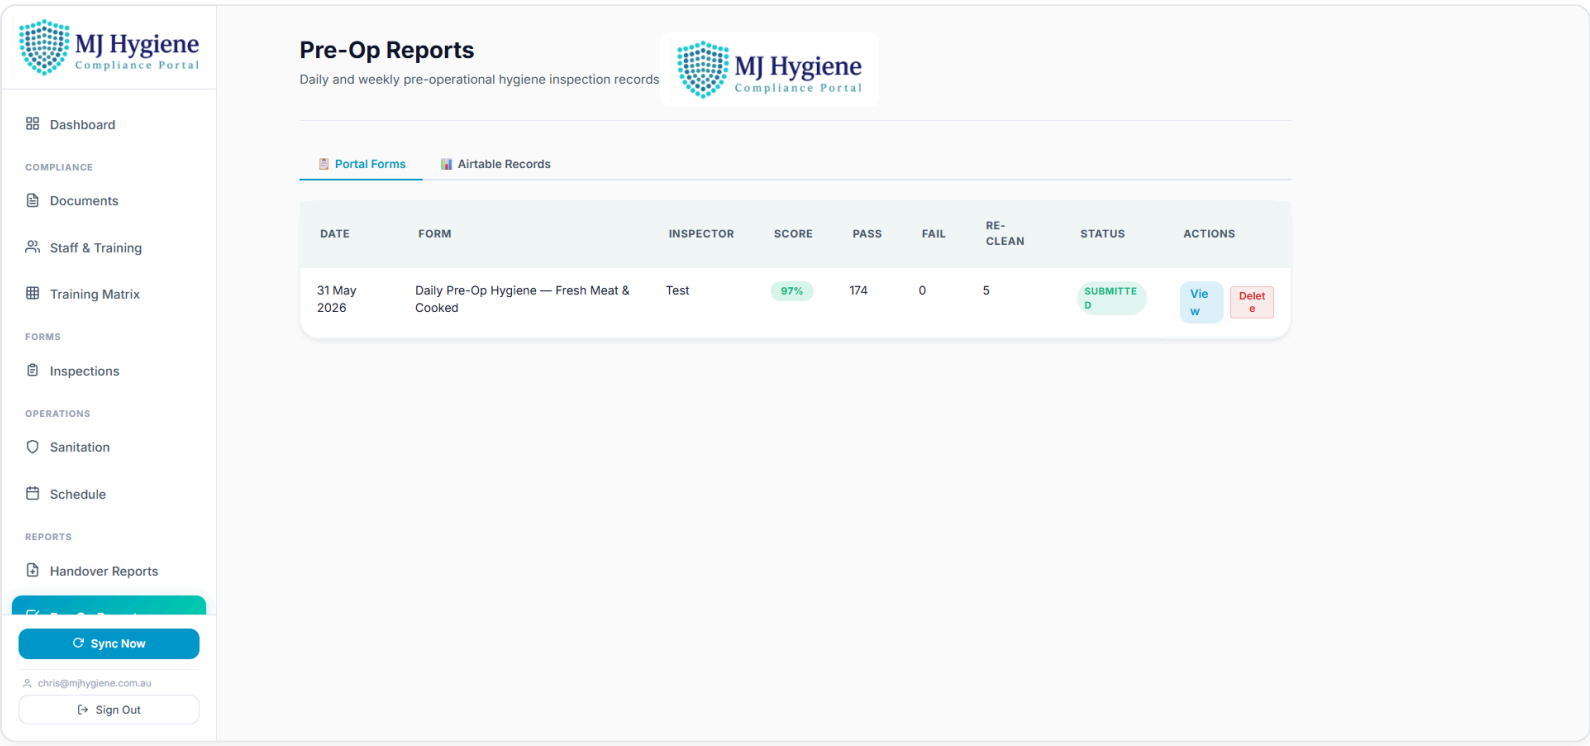

Review shift handover communications.

- Filter reports by date range or site.
- View issues, outstanding tasks, and shift notes to ensure smooth operational transitions.

3.4 Pre-Op Reports

Access Pre-Operational hygiene inspection records.

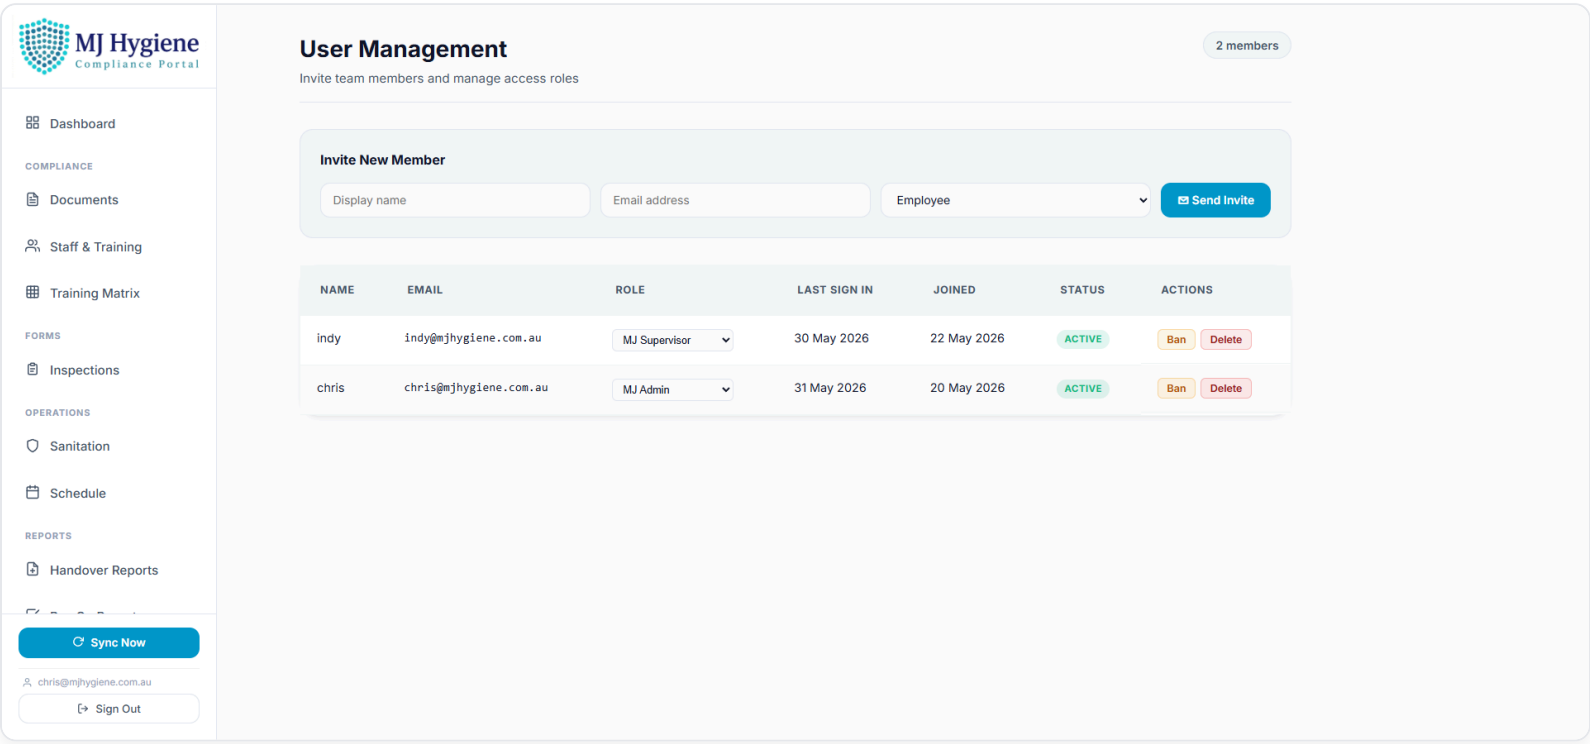

- Review pass/fail metrics for specific production areas before operations commence.
- Track corrective actions for failed pre-op inspections.

4. Administration

4.1 User Management

Available to **MJ Admin** users only. Manage who has access to the portal.

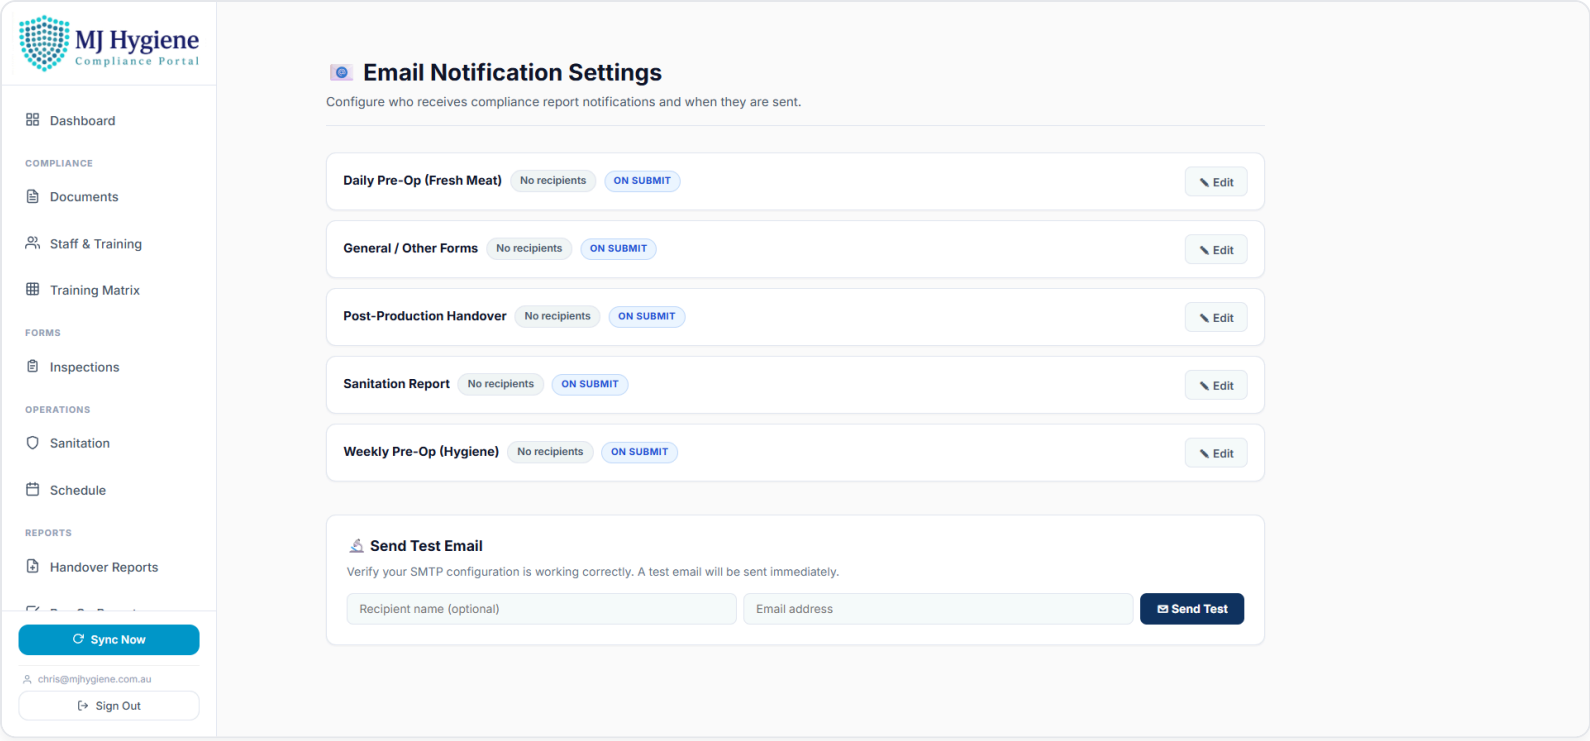

Actions available:

- **Invite User:** Send an email invitation to a new staff member. Assign them a specific role (Inspector, Supervisor, Admin).
- **Edit Roles:** Change a user's permission level.
- **Deactivate:** Revoke a user's access to the portal.

4.2 Email Settings

Available to **MJ Admin** users only. Configure how the portal sends outbound emails (e.g., invitations, alerts).

- Configure SMTP server details (Host, Port, Username, Password).
- Send a test email to verify the configuration is working correctly.

4.3 Data Sync

The RPF Compliance Portal is backed by a robust synchronization engine that pulls data from legacy systems (Airtable) into a fast, reliable Supabase database.

> **Automated Background Sync**
>
> The system automatically syncs data in the background every 30 minutes. You rarely need to trigger this manually.

When to use Manual Sync:

If a record was just updated in the legacy system and you need to see it in the portal *immediately*, click the **Sync** button on the Dashboard. This forces an instant refresh of Staff, Documents, Training, and Schedule data.
